

# ASWU Clubs

The Associated Students of Whitworth University helps fund and run around 50 clubs on campus. Our clubs range from academic based, religious, cultural, recreational, professional, service, and more! Clubs host events, workshops, and are a great way to find community on campus with like-minded people or to find spaces where you can learn more about things you do not know much about.

1. Reach out to students interested in the club. Compile a list of their names and graduation years.
  - a. This does not stand in the way of starting a club, we just like to see what interest there is already!
2. Find a Faculty Advisor.
  - a. Advisors are responsible to attend a yearly training and hold the club accountable if there are disciplinary measures needed.
3. Create a club constitution (email Club Coordinator for sample constitution).

Once you have completed these steps, please upload this to our HFS website. If you are not familiar with HFS, you will need to create a profile with your Whitworth email and then join our ASWU member page. You can find this website on Google if you search “Whitworth Campus Groups”. Here is the link to the submission page as well.
